### SPRING FLYING IN THE POCONOS

The unimposing community of Honesdale, PA actually has a part in transportation history. The Stourbridge Lion, imported from England by the Delaware and Hudson Canal Co. was the first steam locomotive to operate on a commercial railway at Honesdale, in August, 1829. While it ran just fine, it was not a commercial success, but did show the viability of a steam engine as a prime mover for transportation. We'll have a look at the Honesdale area on a springtime flight to Cherry Ridge airport (N30) on April 17. This 78 nm jaunt will take us over some of our state's most scenic areas.

The tidy restaurant overlooks the runway, and serves up a tasty breakfast or savory lunch.

Practice up on your short field takeoffs—while the runway is 2,420 feet long, the elevation is 1,357 feet, so you might have to think about density altitude, especially if we get one of those warm, spring days.

We'll gather at Penn Airways at 0930 for 1000 takeoff. Take a non-pilot or a student along, for an introduction to the world of general aviation—the fun and camaraderie. Contact Gene Poppel (610-647-1332 or genepoppel@comcast.net) and let him know if you'll need a ride or have a seat available in your plane.
